Ms. Michelle Jupina
Assistant Director
Federal Bureau of Investigation
Records Management Division
170 Marcel Drive
Winchester, VA 22602

Dear Ms. Jupina:

This letter is to notify you that, in accordance with 36 CFR, Part 1229.10, the Archivist of the United States has approved your request for emergency destruction of approximately 3,000 cubic feet of records damaged during Hurricane Sandy. In accordance with your proposal, this approval allows destruction of the temporary New York auxiliary office case files, time and attendance records, and cases of less than 5 sections which were opened prior to 1991 and for which FBI does not otherwise have a business need to remediate.

The flood damage and the health risks posed by these records are significant and this approval is to allow FBI to focus efforts on recovering damaged records of the highest significance. Although this request has been approved, we would ask that you continue to work with and keep NARA updated on the status of these remediation efforts.

If you have any questions concerning this matter, please contact your appraiser Rachel Ban Tonkin at rachel.bantonkin@nara.gov or 301-837-2039.

Sincerely,

LAURENCE BREWER
Director
National Records Management Program
Office of the Chief Records Officer
